

## **TRAFFIC ADVISORY WHICH MAY IMPACT CAPE LIBERTY CRUISE PORT:**

The following will be on **Weekends from 9/8/17 to 10/20/17:**

### **For the weekend of 9/15/2017:**

#### **Newark Bay Bridge (Interchange 14-14C):**

**Eastbound:** No closures scheduled.

**Westbound:** No closures scheduled.

**Interchange 14A** – No closures scheduled. See <http://www.njta14a.com/category/traffic/> for upcoming traffic advisories.

#### **Jersey City (Jersey Avenue - Interchange 14C):**

**Eastbound: Interchange 14C-Jersey Avenue:** Traffic will be reduced to one lane from 8P Friday to 5A Monday. These closings are necessary to address high priority and emergent bridge deck repairs and resurfacing, which are required to maintain the eastbound roadway and shoulder lane during the Pulaski diversion

**Westbound:** No closures scheduled.

### **For the weekend of 9/22/2017:**

#### **Newark Bay Bridge (Interchange 14-14C):**

**Eastbound:** No closures scheduled.

**Westbound: Interchange 14B – 14:** Traffic will be reduced to one lane from 9P Friday to 5A Monday between milepost N5.7 – N0.0. This work has been coordinated with westbound Pulaski Skyway and the Bayonne Bridge, both of which will remain open during peak periods Saturday and Sunday. This closing is necessary to address high priority and emergent bridge deck repairs in the westbound travel lanes.

**Interchange 14A** – No closures scheduled. See <http://www.njta14a.com/category/traffic/> for upcoming traffic advisories.

#### **Jersey City (Jersey Avenue - Interchange 14C):**

**Eastbound: Interchange 14C-Jersey Avenue:** Traffic will be reduced to one lane from 8P Friday to 5A Monday. These closings are necessary to address high priority and emergent bridge deck repairs and resurfacing, which are required to maintain the eastbound roadway and shoulder lane during the Pulaski diversion

**Westbound:** No closures scheduled.

### **For the weekend of 10/6/2017:**

#### **Newark Bay Bridge (Interchange 14-14C):**

**Eastbound:** No closures scheduled.

**Westbound: Interchange 14B – 14: Weather back-up for the weekend of 9/22/2017.** Traffic will be reduced to one lane from 9P Friday to 5A Monday between milepost N5.7 – N0.0. This work has been coordinated with westbound Pulaski Skyway and the Bayonne Bridge, both of which will remain open during peak periods Saturday and Sunday. This closing is necessary to address high priority and emergent bridge deck repairs in the westbound travel lanes.

**Interchange 14A** – No closures scheduled. See <http://www.njta14a.com/category/traffic/> for upcoming traffic advisories.

**Jersey City (Jersey Avenue - Interchange 14C):**

**Eastbound: Interchange 14C-Jersey Avenue:** Traffic will be reduced to one lane from 8P Friday to 5A Monday. These closings are necessary to address high priority and emergent bridge deck repairs and resurfacing, which are required to maintain the eastbound roadway and shoulder lane during the Pulaski diversion

**Westbound:** No closures scheduled.

**For the weekend of 10/20/2017:**

**Newark Bay Bridge (Interchange 14-14C):**

**Eastbound: Interchange 14-14C: Weather back-up for the weekend of 9/22/2017.** Traffic will be reduced to one lane from 10P Friday to 5A Monday. This has been coordinated with the Bayonne Bridge, which will remain open during peak periods Saturday and Sunday. These closings are necessary to address high priority and emergent bridge deck repairs and resurfacing, which are required to maintain the eastbound roadway and shoulder lane during the Pulaski diversion. The eastbound shoulder lane will not be in use during this closure.

**Westbound:** No closures scheduled.

**Interchange 14A** – No closures scheduled. See <http://www.njta14a.com/category/traffic/> for upcoming traffic advisories.

**Jersey City (Jersey Avenue - Interchange 14C):**

**Eastbound: Interchange 14C-Jersey Avenue: Weather back-up for previous weekends.** Traffic will be reduced to one lane from 8P Friday to 5A Monday. These closings are necessary to address high priority and emergent bridge deck repairs and resurfacing, which are required to maintain the eastbound roadway and shoulder lane during the Pulaski diversion

**Westbound:** No closures scheduled.
